

# WALLY GRAPHITE 2M20 HIGH

The shower WALLY is the result of a refined architectural effect and of a very smart design. Manufactured in galvanized steel (hot-galvanized) and coated in a dark slate grey finish. This double industrial treatment gives the unit exceptional longevity, unique shock resistance and remarkable protection from corrosion. All specific colors in the RAL color chart are available upon request. This shower is square from the bottom to the head with a square vertical structure of 80 mm x 80 mm and its all square fittings : square arm shower, square showerhead 20 cm x 20 cm, square faucet knob and square base of 15 cm x 15 cm.

Water connection can be done at the back base with a garden hose or underneath with plumbing fittings.
